### Summary

**Aspiring Full Stack Developer** with a solid foundation in the **MERN stack** (MongoDB, Express.js, React, Node.js). Skilled in building dynamic user interfaces and integrating efficient server-side technologies to generate functional web applications from conceptual requirements. A creative problem-solver dedicated to delivering effective, real-world solutions through clean code and modern development practices.

### Skills

- **Frontend Technologies:** JavaScript, React JS, HTML, CSS, Bootstrap.
- **Backend Technologies:** Node.js, Express.js.
- **Database & Systems:** MongoDB, NoSQL.
- **Soft Skills:** Time management, Problem solving , Leadership quality

### Certifications

**Certification in Full Stack Development Illinois Tech, US**

**Jun 2025 - Feb 2026**

**Certification in Full Stack Development from Entri Elevate**

**Jun 2025 - Feb 2026**

- Performed end-to-end full-stack implementation utilizing HTML, CSS, JavaScript, and React.js for dynamic interfaces.
- Implemented server-side logic and RESTful APIs using Node.js and Express.js.
- Integrated MongoDB for efficient data storage and retrieval, ensuring seamless data flow across applications.
- Developed real-time projects to enhance technical capabilities and problem-solving skills.

### Projects

#### **Hospital Management System** | [Project link](#)

- Developed a full-stack Hospital Management System using MERN stack.
- Implemented secure user authentication and role-based access (Admin, Doctor, Patient) .
- Designed a responsive frontend using React for smooth user interaction.
- Built backend APIs using Node.js and Express.js with MongoDB for structured data storage.
- Applied input validation and secure data handling to maintain accuracy and reliability.
- Implemented appointment scheduling and real-time status updates.

#### **Employee Management System** | [Project link](#)

- Developed a MERN-based web application to manage employee records efficiently.
- Implemented CRUD operations (Add, Update, Delete, View) for employee data management.
- Designed a responsive frontend using React for smooth user interaction.
- Built backend APIs using Node.js and Express.js with MongoDB for structured data storage.
- Applied input validation and secure data handling to maintain accuracy and reliability.

### Education

- **Bachelor of Science in Information Technology**  
Sasurie College of Arts and Science.
